

# Yale SCHOOL OF MEDICINE

## Teaching and Learning Center

### **Team-Based Learning Exercise**

#### **Session Objectives:**

Team Based Learning (TBL) is a method of teaching in large groups that fosters students' active participation and their responsibility for learning. This session will introduce you to a new way of thinking about large group teaching as TBL goes beyond covering content and focuses on ensuring that students have the opportunity to practice using course concepts to solve problems.

1. Define TBL as a teaching strategy
2. Explore how to facilitate a TBL session
3. Discuss the strategies to implement TBL into your teaching
4. Experience and practice learning in a TBL session

#### **Reading prior to session:**

Michaelsen L.K., Sweet M. The Essential Elements of Team-Based Learning

#### **Facilitator:**

Paul Haidet, MD, MPH  
Director of Medical Education Research  
Penn State College of Medicine  
500 University Drive  
Hersey, PA 17033
